Oscar Peterson Centennial

Date and Time: Thursday, October 2 7:30 pm - 9:30 pm

Address: 440 Locust Street

2025 marks the centennial of Dr. Oscar Peterson, one of the great pianists in jazz history and a Canadian national treasure. It is fitting that his life and career be celebrated with this musical retrospective featuring some of Canada's most important jazz musicians.

For the occasion, the Oscar Peterson Centennial Quartet was formed and will consist of pianist Robi Botos, bassist Mike Downes and drummer Jim Doxas. It is important to note that these musicians have won top honours at the Juno Awards over the past few decades.

For this exceptional celebration, a distinguished guest will join the group. In this case, the virtuoso Swedish guitarist, Ulf Wakenius, who was the last guitarist of the Oscar Peterson Quartet. He certainly held one of the most prestigious tasks entrusted to a guitarist, that of accompanying Mr. Peterson from 1997 until the death of the great pianist in 2007.

This unique concert will highlight Mr. Peterson's most famous and appreciated compositions, such as "Place St-Henri," "Hymn to Freedom" and "Cakewalk." Of course, great jazz standards will be intertwined with Oscar's works.

Gord was introduced to Chanie Wenjack (misnamed “Charlie” by his teachers) by Mike Downie, his brother, who shared with him Ian Adams’ *Maclean’s* story from February 6, 1967, “The Lonely Death of Charlie Wenjack.”

The stories Gord’s poems tell were fleshed into the ten songs of *Secret Path* with producers Kevin Drew and Dave Hamelin. Recording took place over two sessions at the Bathhouse in Bath, Ontario, November and December.

er 2013. The music features Downie on vocals and guitars, with Drew and Hamelin playing all other instruments, except guest contributions by Charles Spearin (bass), Ohad Benchetrit (lap steel/guitar), Kevin Hearn (piano), and Dave “Billy Ray” Koster (drums).

Classic Albums Live Michael Jackson's Thriller

Date and Time: Friday, October 24 7:30 pm - 9:30 pm

Address: 440 Locust Street

Classic Albums Live and its roster of A-list musicians perform Michael Jackson's *Thriller*, note for note, cut for cut. Released in 1982, the album broke ground and redefined the possibilities of pop music. It was produced by Quincy Jones, who previously worked with Jackson on his album *Off the Wall* (1979). With the ongoing backlash against disco music at the time, he moved in a new musical direction, resulting in a mix of pop, post-disco, rock, funk, synth-pop, and R&B sounds, and darker themes; Jackson wanted to create an album where "every song was a killer." Featuring iconic singles like *Billie Jean* and *Beat It*, the album set new records, becoming the best-selling album of all time, a title it still holds to this day.
